## "MARYLAND SAUCER MAG"

—To give the News and Views of the Members of the  
CIVILIAN RESEARCH SOCIETY OF MARYLAND—  
A Flying Saucer Club in Baltimore, Md.

---

Volume I, No. 2

NOVEMBER 1955 AD

---

"These are the things that ye shall do: Speak ye every man the truth to his neighbor; execute the judgment of truth and peace in your gates." Zechariah 8:16

JESUS CHRIST said, "YE SHALL KNOW THE TRUTH AND THE TRUTH SHALL MAKE YOU FREE." St. John: 8:32

---

### BALTIMORE BUSINESS MAN SEES MANY SAUCERS

Elsewhere in this issue of the "Maryland Saucer Mag" is a double page chart giving a summary of the saucer sightings made by George G. Buschman, one of the charter members of the Civilian Research Society of Maryland. It contains 26 sightings, which we believe is the longest list of such phenomena reported by any one person in the state of Maryland. Until now, none of these records have been published. According with the promise made in our last edition of this little mag, we asked Mr. Buschman to tell his saucer story. He wrote the following letter to us:

To Maryland Saucer Mag:

Reference phone conversation Monday evening, I am attaching list of UFO's seen by me. When there were other people with me who saw them also, I have included their initials with the record.

I am convinced that these things were real. They were not geese with flashlights, weather balloons, nor some of the other things the skeptics say they are.

Included in the list of my sightings is a large mother ship which I saw in June of 1952, a most impressive sight. The fire ball I saw in August of last year was also outstanding. The large

red-orange object I saw in January of this year had the appearance of a great steel beam of tremendous size, while the object I saw on Wednesday night, November 2, looked more like a great gold colored globe similar to a fireworks sparkler. It was not a meteor, because it came straight down from the skies.

Most of the others were apparently the Flying Saucer type and were generally seen from my own home vicinity in the evenings.

I keep a list of each sighting, giving the date, time, color, and the like. You may use this information for the club bulletin if you desire. Prior to this time, none of these reports of my UFO sightings have been published.

Sincerely,

George G. Buschman

George G. Buschman is a Baltimore business man of means. He lives in the Stoneleigh neighborhood in the same fine home where he has lived for several decades, where his children were raised and went to school. Buschman was in the U.S. Army in World War I. His three children are college trained, one of them graduating cum laude recently. He is an executive of a large import-export business in coal tar derivatives with a refinery in the southland; a faithful church member in a large church; and he belongs to prominent fraternal organizations. He proudly counts his young grandchildren, five of them at present, and one of them is George G. Buschman, III.

Most of Buschman's sightings have been made from his own spacious front porch where he often sits in the evening, resting, listening to a ballgame, while watching the skies out toward the direction of Washington, D.C., which is west and southwest of his home. He is quite familiar with the appearance and sounds of all regular aircraft and is positive that none of his recorded sightings were any of the earthmade airships.

Mr. Buschman first got interested in the subject of flying saucers when he read an article about them in True Magazine sometime in 1947 or thereabouts, and he was just as skeptical in those days as any other saucer critic. But he says there was the sound of sober truth in that article that stuck in his mind, so later he bought Frank Scully's book, "Behind the Flying Saucers" published in 1950, following this with other saucer books that came out. He became convinced that the thousands of people reporting on sightings all over the world were seeing real space craft and that these things could be highly significant to our day and age. He dropped his skepticism and began to study harder.

He talked with many men and women—scientists, businessmen, ministers, experts in aerodynamics and magnetic energy. He read much. His library is full of heavy reading matter on related subjects, current digests, philosophical essays, religious studies; and then he began to watch for his first flying saucer. Along with many witnesses, he saw a large mother ship while watching a baseball game at Clifton Park one evening in June of 1952. That became his first entry in a carefully kept notebook on his saucer sightings. The most recent sighting was Wednesday night, November 9, just last week.

In a general way, Buschman describes UFO as being distinguished from other aircraft by high speed, difference in their lighting effects, the soundlessness of their travel, power to hover motionlessly, and ability to fade into space almost instantly. As to relative size, he says they loom in the sky close enough or large enough to look as if they were half the size of the moon when it is not far above the horizon. How does he account for the fact that he has had so many sightings while others have had none? Buschman says more people could see them, if they would take the trouble to look UP once in awhile, and be willing to sit calmly and watch for them. What do his neighbors and his own family think about his accounts? Well, Mr. Buschman is tolerant and patient. He has a fine sense of humor and constantly twinkling eyes. "I'll wait," he says. "It took me awhile—and a lot of hard thinking—before I got used to the idea myself!"

#### MINUTES OF THE LAST MEETING

The Civilian Research Society of Maryland met at 8 p.m. at 1836 West Baltimore. Those responding to rollcall were Buschman, Eby, Franko, Franzl, Hackett, King, Koehler, Mr. and Mrs. Martin, Miller, Reilly, Mr. and Mrs. Shockett, and Weller. The vice president served in the absence of the president. The secretary read the minutes of the organizational meeting and the minutes were approved. There were no other reports offered, no new business presented. This was a meeting devoted to reading excerpts from various saucer papers and letters, with informal discussion, questions and answers. The bylaws and membership forms were not presented at this time, and dues were not called for either, inasmuch as signed memberships were not in order. Despite the interesting subjects under discussion, the meeting was adjourned promptly at 11:30 p.m. Mr. Koehler served coke and cookies and the fourteen people enjoyed good fellowship.

## GEORGE G. BUSCHMAN'S RECORD OF UFO, FLYING SAUCERS, FIRE BALLS, MOTHER SPACE SHIPS, JUNE 1952 TO PRESENT

No.	Date	Time	Place	Description	Witnesses	Remarks
1.	6-17-52	6:45 pm	Clifton Park	Large mother ship	Many	When attending baseball game
2.	10-10-52	6:30 pm	East of Guilford Avenue	Flashing blue and white lights	JWB	It flew over Md. Penitentiary
3.	3-7-54	7:45 pm	Near Memorial Stadium	Red-orange flashing light	LS	Saucer type, disc with landing gear
4.	3-7-54	10:45 pm	Loch Raven vicinity	Blue-white flashing lights	LS	Sighted flying over Loch Raven dam
5.	3-22-54	8:00 pm	902 Old Oak Road (home)	Brilliant orange-red lights	None	Southwest of Buschman home
6.	4-12-54	9:15 pm	902 Old Oak Road	Orange-red signaling	None	Same as above
7.	6-11-54	8:45 pm	902 Old Oak Road	Orange-red lights	None	Southwest of his home
8.	6-11-54	9:15 pm	902 Old Oak Road	Blue and white lights	None	Flew to the east of his home
9.	6-22-54	Not given	902 Old Oak Road	Orange-red predominating	None	UFO sighted to the southwest
10.	8-6-54	8:45 pm	902 Old Oak Road	Orange-red, bright lights	JHC	Southwest of the home
11.	8-10-54	9:10 pm	902 Old Oak Road	Orange-red	None	Disc type of saucer
12.	8-13-54	9:00 pm	902 Old Oak Road	Large red FIREBALL	None	Sighted high over toward west
13.	8-17-54	8:45 pm	902 Old Oak Road	Red and white lights, etc	None	Toward the southwest area
14.	8-17-54	9:05 pm	902 Old Oak Road	Red and white like above	None	Same type, perhaps same one
15.	8-17-54	9:30 pm	902 Old Oak Road	Red-white disc shaped	CBG & wife	It circled outskirts of Baltimore
16.	9-13-54	10:45 pm	902 Old Oak Road	2 large ones together	CMK, JH, JWB	Seen standing motionless over house
17.	12-20-54	8:00 pm	902 Old Oak Road	Bright orange-red lights	None	Usual disc shaped saucer
18.	1-17-55	9:10 pm	902 Old Oak Road	Blue and white lights	None	Moving rapidly across sky
19.	1-20-55	5:20 pm	Fayette & Fallsway	Red-orange	HW	Very long like steel beam, seen 5 min.
20.	5-17-55	10:15 pm	East Falls Rd & 40th	Orange and white, bright	MH	Moved toward Washington, D.C.
21.	6-12-55	9:15 pm	Friendship Airport	Red blinking lights	Many	Definitely not regular airplane
22.	6-17-55	11:10 pm	902 Old Oak Road	Red and orange lights	CMK	Sighted southwest of the home
23.	6-22-55	10:15 pm	902 Old Oak Road	Blue and white lights	None	Due west of Buschman home
24.	10-25-55	8:15 pm	Orleans Street Viaduct	Red-orange & red-white	None	TWO FS, visible for 10 minutes
25.	11-2-55	8:45 pm	Lanvale & Maryland	Brilliant GOLD colored	None	Like sparkler or a great globe
26.	11-9-55	9:15 pm	Lafayette & Calvert	Bright green and white	None	Sighted off to the southeast

## WORLD INTERPLANETARY ASSEMBLY REPORTED

The September 1955 edition of "SAUCERS", Max B. Miller, Editor, published in Los Angeles, reported an AP dispatch from Geneva that quoted advice given to the Big Four conference by members of the World Interplanetary Association. This issue also gives the full details about this group, together with an article by Prof. Alfred Nahon of Lausanne, Switzerland, editor of the paper put out by the organization. Congratulations, Max Miller, on the 16-page illustrated "SAUCERS" and may it grow steadily.

Overheard at the last meeting of the Maryland saucer group a comment by one of our founders: "What that California paper is doing! Watch SAUCERS pull out in front of all the others."

## WE HOPE TO STUDY AIR FORCE SAUCER REPORT

This letter explains itself. Perhaps our next "Maryland Saucer Mag" will be able to give a book review on this paper!

Hon. Donald A. Quarles, Secretary of the Air Force,  
c/o The Pentagon, Washington 25, D. C.

DEAR SIR:

The recent AP news release reported on the detailed findings of the Air Force authorities with regard to the so-called "flying saucers", referring to this as a 316-page report. Is it possible to obtain a copy of this report? If so, please tell us what it costs and we will send a check for one copy. Thank you for this service.

Very truly yours, Civilian Research Society of Md.

## AIR FORCE and NAVY "COPYING" FLYING SAUCERS!

The big news stories in all the newspapers, weekly magazines, radio reports, etc, giving the report by Air Force Secretary Donald A. Quarles, was interesting reading during the first week of this month. Charts, drawings, statistics, artist's conceptions of the new disc shaped VTO that will hover and whiz off and change directions rapidly, are all intensely interesting, but Mr. Quarles says saucers are NOT real. The 316-page report issued by his men as purporting to go into the matter thoroughly, gives data on 4,854 sightings beginning in 1947 through 1954 of which investigations the AF classifies the UFO as balloons, other known aircraft, astronomical phenomena, birds, windblown papers, mirages, et cetera. But the record does include these statistics:

7%	Insufficient information
3%	UNKNOWN

That 10% leaves room for several hundred good and solid — FLYING SAUCERS from outer space!

## GLENN L. MARTIN ESTABLISHES NEW LAB

The Associated Press and other news agencies recently carried stories about the new science laboratory being set up at the Glenn L. Martin Company's Middle River plant just "next door" to our own field of research. GLM is quoted as expecting to "explore both theoretically and experimentally the frontiers of man's knowledge" in this venture. Also the great news story of earlier date, when President Eisenhower announced that an earth satellite would be built in this nation, was recently topped off by the added information that the GLM company will build this satellite. It will be called VANGUARD, will be shot 200 to 300 miles up into the heavens, there to take its earth circling orbit more or less endlessly at 18,000 mph, according to the plans. So we can take local pride in these healthy signs of the times and trust that the true scientists with their painstaking, patient work will get at some of these vital facts, and then be willing to share some of their findings with the painstaking, patient and likewise longsuffering tax payer.

### Q and A Department:

- Have you joined Civilian Research Society of Maryland?
- Are you inviting your friends to come to our meetings?
- Will you make plans to visit Wash. D.C. Forum Dec. 11?
- How's your general Saucer-pulse since the AF release??

## WE GOT A LETTER FROM GEORGE ADAMSKI

Dear Mrs. Hackett:

Thank you sincerely for your kind letter of good wishes of October 10th. Since returning home I have rested much and am regaining my strength.

However, at present I am not planning any future lectures; this is according to the doctor's orders. But I will be glad to work with your group in any way possible for the greater understanding of the reality of present day events.

Enclosed is a brochure which I believe may be interesting to the ministerial student you mentioned. Truly, the time has arrived when the SPIRITUAL leaders of this world should take their stand by placing these interplanetary visitations on the side of reverence in the minds of earthmen, instead of the present fear which exists to such an extent.

You are right. We have been given information which clears away much mystery that has existed for centuries regarding the Christian Bible and its records.

With every kind wish, very sincerely,  
(Signed) GEORGE ADAMSKI

### SOME QUOTATIONS FROM ADAMSKI'S BROCHURE

The little leaflet brochure called "A Challenge to Spiritual Leaders" which Mr. Adamski sent with his letter, includes the following thought provoking sentences:

"We should be concerned with much more than merely the dramatic idea of flying through space... That is a very minute part of the whole. Once this is realized, the coming of these craft establishes a substantiation for man's eventual destiny, which up to now has been but a vague hope... In challenging mankind to think in terms of Cosmos, the puny differences which have brought him to grief on this earth will soon be forgotten... A human body born in this world CAN be taken elsewhere in earthly form to a place called Heaven. This is what is described in the ascension of Jesus... The Lord's Prayer is an acknowledgement of a world or place called Heaven. "Thy will be done on earth as it is in heaven." If the Father's will can be done on earth as it is in heaven, it is an admission that the earth can and will become better, or like heaven... Prophecy as it has been written, will be fulfilled one way or the other: either the Kingdom of Heaven WILL be established on this earth, or the complete annihilation of earth's inhabitants will be inevitable."

## INVITATION FROM LITTLE LISTENING POST

Mrs. Walton Colcord John writes at midnight November 14 from her home in Washington, D.C. giving big news to us here:

"Here's the latest re John Otto and his saucer lectures in this vicinity. November 27 is too early to get the thing set up. Dr. Mock of our group here suggests mid-January...He would like the date of December 11 for a regular FORUM Meeting here in D.C. ON SAUCERS. And he thinks the idea of someone from your club coming over to give a run-down about your new club, how it got started, etc, would be excellent. Also some of your men have had good sightings. At the same time we might get our Mr. Rhorbach here to come again and tell more about his sightings and sort of compare notes. Please let us hear if your men would be willing to do this. There are some forty who come to these meetings Sunday mornings, 10 a.m....It will be interesting and helpful for our two cities to keep pace."

## WISE WORDS OF ADVICE FROM SAN DIEGO

Dr. Meade Layne of the Borderland Sciences Research in California wrote these words of counsel in a personal letter:

"I am not able to unravel the mystery of the discs from the standpoint of Christ's teachings, but it is reasonably certain that these objects were known in ancient times and are mentioned in the Bible. And since those teachings are full of wisdom and knowledge, it is not likely that there will be any serious contradiction between them and present day truth.

"Great events of planetary importance are close at hand. I can only urge on you to keep a quiet mind, whatever happens, and to turn your thoughts toward helping others. Whatever religious faith gives courage and strength, hold fast to its truth; but also LEARN in every way possible. Do not close your minds to new knowledge, knowledge not caught to you before, perhaps. The whole world, I believe, is now going to be compelled to give up its old inadequate ideas. To refuse to learn Truth and change our lives accordingly is to take a very hard path indeed. Live normally. Accept the unexpected with equanimity."

## THANKSGIVING

"Now thank we all our God, with heart and hands and voices  
He wondrous things hath done; in Him the Earth rejoices!"
